- UI/UX Design | Figma | Adobe Photoshop | Adobe Illustrator | Responsive Design | Website Optimization | Mobile Responsiveness

AI-Powered Development & Automation:

- AI-Assisted Development | AI Integration | AI-Powered Coding | Development Workflow Automation | Scalable Web Applications

PROJECT EXPERIENCE

AI-Powered Full-Stack, Ui/Ux & Wordpress Developer **Nov 2020 – Present**
Zam Solutions | Islamabad, Pakistan

- Engineer responsive, scalable and high-performance web applications across front-end, back-end and CMS environments.
- Develop and customize WordPress websites, building tailored themes, plugins and functional website components.
- Implement PHP and Laravel solutions to support dynamic functionality and application development requirements.
- Build modern front-end experiences using JavaScript, React, Next.js, HTML5 and CSS3 technologies.
- Integrate RESTful APIs and third-party services, enabling seamless communication between applications and platforms.
- Develop headless CMS workflows supporting API-driven content management and flexible digital content delivery.

UI/UX Designer / Developer **Aug 2019 – Oct 2020**
Spearhead Technology | Islamabad, Pakistan

- Designed responsive website interfaces using Photoshop, HTML5, XHTML, CSS3 and Bootstrap technologies.
- Translated visual concepts into functional front-end interfaces, improving usability and navigation across website pages.
- Developed structured page layouts, ensuring consistent presentation across desktop, tablet and mobile devices.

Web Designer / Front-End Developer **Oct 2018 – Jul 2019**
Irtifa Group (Wizkon) | Islamabad, Pakistan

- Developed website interfaces, implementing front-end components aligned with established visual design requirements.
- Utilised HTML and CSS to build structured layouts, improving consistency across multiple website pages.
- Refined interface presentation and navigation, supporting accessible and user-friendly website experiences across devices.

Web Designer / Front-End Developer **Apr 2017 – Sep 2018**
Global Technology Coverage | Rawalpindi, Pakistan

- Improved mobile traffic by 50% through responsive website design and mobile-friendly interface implementation.
- Reduced website loading times by 40% through front-end performance optimization and design improvements.

Web Designer / Front-End Developer **May 2013 – Mar 2017**
Zam Software Solutions | Islamabad, Pakistan

- Built a professional foundation in website design and front-end development through practical project delivery.
- Developed website layouts and interface elements using core web design and front-end technologies.

EDUCATION

Bachelor of Arts (BA) | Punjab University, Lahore **2011 – 2013**
